Bob - this is the Battelle hydrodynamic model for the harbor. We're looking for 1) the CDF C ground water model that Foster Wheeler did in 2001 (you recently emailed this to ERDC I believe) and 2) the PCB and Cu flux modeling that ERDC did for the proposed CDF C in the 97/98 timeframe.

thanks - Dave

Folks:

I downloaded the attached 1991 modeling report from the EPA website (address below).

Dave - Is this the report we were talking about?

Dave, KC - I sent this same report out to you in a different email, so you may already have this report.

All-I have asked ERDC for the 1998 Modeling report in electronic format and will distribute when I receive it.

Bob
